[Looks OK except I'd add in EPA's 2013 RMP investigation that we would evaluate all available records and interview transcripts in regard to 112 \(r\).....visiting the blast site won't be very informative by itself.](#)

All - Here is the response to questions 1 & 8. Kim Jennings (OEM) asked for a response to questions 1 and 8 by Tuesday May 7.

Carl – if this meets your approval, I ask that you share it with David Gray for his review.

Bob and Steve – please send your draft responses to the other questions to Ragan, Chris P and myself so we can review them prior to sending them to Carl. If possible send them on by noon on Monday so any modifications can be made prior to Ragan/Chris sharing them with Carl. Steve Mason and Bob Goodfellow are reviewing the other 8 questions to see if they have a regional perspective we may want to provide to the national response, in particular to questions 6, 7, and 9.

Question 6: How often are those covered facilities inspected by EPA officials

9497564

Question 7: Who at EPA has lead responsibility for Sec 112(r ) of the Clean Air Act, and how does EPA ensure that oversight is regularly conducted at covered facilities?

Question 9: Explain how EPA works with other agencies at the local, state, and federal level to plan for accident prevention.

I am sending this message to each of you as I will be out on furlough Monday (6:45am -8:45 am) and on leave the remainder of the day. On Tuesday, I am scheduled to work Flexiplace, have a doctor appointment at 1:40 pm and am taking 1 hour of furlough on Tuesday 3:15-4:15pm.
